

SIMATS ENGINEERING

ASSESSMENT TOOL 2

COURSE CODE: CSA14

COURSE NAME: COMPILER DESIGN

Questions

Annexure A

SHORT ANSWER TEST

Q1. A lexical analyzer produces the token stream:

id + id * id

Explain how the parser validates the syntactic structure of the expression.

Q2. Given the grammar:

$S \rightarrow aSb \mid \epsilon$

Determine whether the string aaabbb belongs to the language using derivation.

Q3. Remove left recursion from the grammar:

$E \rightarrow E + T \mid T$

Q4. Find FIRST(A) for the grammar:

$A \rightarrow aB \mid \epsilon$

$B \rightarrow b$

Q5. Determine whether the grammar is suitable for top-down parsing:

$A \rightarrow Aa \mid b$

Q6. Apply left factoring to the grammar:

$S \rightarrow \text{while } E \text{ do } S \mid \text{while } E \text{ do } S \text{ else } S$

Q7. Construct a parse tree for the expression:

id * id + id

using the grammar:

$E \rightarrow E + E \mid E * E \mid \text{id}$

Q8. Write the recursive descent procedures for the grammar:

$S \rightarrow aA$

$A \rightarrow bA \mid c$

Q9. Given the grammar:

$S \rightarrow AB$

$A \rightarrow a \mid \epsilon$

$B \rightarrow b$

Construct the predictive parsing table.

Q10. Demonstrate the first three actions of a shift-reduce parser for:

id + id

Q11. Identify the handle in the expression:

id * id + id

for the grammar:

$E \rightarrow E + E \mid E * E \mid i$

Q12. Construct the operator precedence relations for the operators:
 $+$, $*$
where $*$ has higher precedence than $+$.

Q13. Explain how operator precedence parsing handles the expression:
 $\text{id} + \text{id} * \text{id}$

Q14. What are LR parsers? Illustrate with a simple parsing scenario.

Q15. Given the grammar:

$S \rightarrow AA$

$A \rightarrow aA \mid b$

Write the steps involved in constructing an SLR parsing table.

Q16. Compute FOLLOW(A) for the grammar:

$S \rightarrow AB$

$A \rightarrow a \mid \epsilon$

$B \rightarrow b$

Q17. Construct the augmented grammar for:

$S \rightarrow aA$

$A \rightarrow b$

Q18. Find the closure of the LR(0) item:

$S' \rightarrow \bullet S$

for the grammar:

$S \rightarrow aA$

$A \rightarrow b$

Q19. Check whether the grammar is ambiguous:

$E \rightarrow E + E \mid \text{id}$

using the string:

$\text{id} + \text{id} + \text{id}$

Q20. Construct a leftmost derivation for:

$\text{id} + \text{id} * \text{id}$

using:

$E \rightarrow E + E \mid E * E \mid \text{id}$

Q21. Apply left factoring to:

$S \rightarrow aBc \mid aBd \mid b$

Q22. Find FIRST(F) for:

$F \rightarrow (E) \mid \text{id}$

Q23. Determine whether the grammar is suitable for predictive parsing:

$S \rightarrow aA \mid aB$

$A \rightarrow b$

$B \rightarrow c$

Justify your answer.

Q24. Construct recursive descent parser procedures for:

$S \rightarrow abS \mid \epsilon$

Q25. Build the predictive parsing table for:

$S \rightarrow aS \mid b$

and show the table entries for terminals a, b, and \$.

RUBRICS FOR CALCULATION

Criteria	Weightage	Level 4 – Exemplary	Level 3 – Proficient	Level 2 – Developing	Level 1 – Beginning
Understanding of Concepts	25%	Demonstrates thorough, accurate understanding of concepts	Good understanding with minor gaps	Basic understanding with some misconceptions	Poor understanding; major misconceptions
Explanation	25%	Detailed, well-explained answers with relevant examples	Clear explanation with adequate details	Limited explanation; lacks depth	Poor or unclear explanation
Application	20%	Effectively applies concepts with strong analytical ability	Applies concepts with minor errors	Limited application with weak analysis	No application or incorrect analysis
Organization	15%	Well-structured answers with logical flow and coherence	Organized with minor issues in flow	Basic structure, lacks clarity	Poor organization, incoherent answers
Accuracy	10%	Completely accurate and covers all required points	Mostly accurate with minor omissions	Partially correct with missing points	Incorrect answers with major gaps
Clarity	5%	Clear, neat, professional presentation	Understandable with minor issues	Limited clarity, readability issues	Poorly written, difficult to understand
